

SEER ROCKDUST IN OUR ALLOTMENT

ROBIN HOOD ALLOTMENT ASSOCIATION

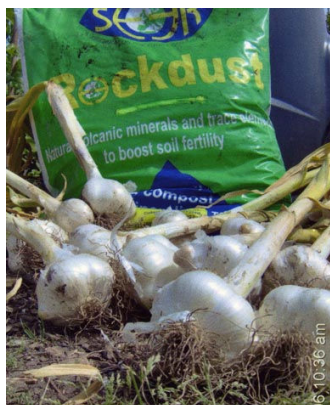

NOTTINGHAM

I put some of the SEER Rockdust I bought last November onto my plot and the results have been marvellous, especially on the SWEET CORN and ELEPHANT GARLIC.

As you can see my neighbours plots on either side over the wire fence are looking pretty dismal compared to my plot that has benefited so much from the application of SEER Rockdust.

I planted the SHERWOOD LETTUCE and the red one's and they are doing very well in-spite of the very hot weather we have been having without any rain.

Yours sincerely
Mrs Shirley Fleetwood
Treasurer
